

# FRANCISCO CARBAJAL WILL RULE IN PLACE OF HUERTA SHORTLY

He Will Step Aside When the Time Comes for Some Other Provisional President Wholly Acceptable to the Constitutionists—Change Likely to Come at Once.

Vera Cruz, July 12.—To save his country from the horrors of civil war and his capital from capture and pillage by a victorious army, General Huerta intends to resign the provisional presidency and leave Mexico. This statement was made yesterday by Roberto Davila Fulk, Mexican sub-secretary of foreign affairs, who reached Vera Cruz from Mexico City on his way to Europe. Huerta, he said, will surrender the government to Francisco Carbajal, the new minister of foreign affairs, who in turn, will step aside when the time comes, for some other provisional president, wholly acceptable to the constitutionists.

Just when the change will come, Carbajal said he did not know. He was convinced, however, that Huerta would lay down his power during the week and it would not surprise him, he said, if his resignation were announced today.

Carbajal, he added, was suggested as provisional president by the American delegation at the Niagara Falls mediation conference and agreed to by Huerta's delegates and the South American mediators, while the constitutionists indirectly had conveyed the idea that he would be acceptable to Carranza.

"That is," explained the Mexican sub-secretary, "Carbajal would be a more provisional president than the real provisional president to be named later."

London, July 12.—The Daily Graphic, commenting on the reported intention of President Huerta to resign, says: "Huerta's game is up. From the moment the rebellion had the sympathy of the United States, its ultimate success was assured."

The paper expresses the hope "that President Wilson, whose policy now

triumphs, will not forget the broad principle upon which that policy is based."

Laredo, Tex., July 12.—Reports from sources usually reliable were current in Nuevo Laredo today that General Carbajal, as provisional president of Mexico, said he would not resign until he had secured the support of any one chosen in this way to succeed him.

Juarez, Mex., July 12.—Thirty Mexican priests, made prisoners by Villa when his army took Zacatecas, have been sent across the border to Juarez, where they are being held under penalty of death. The priests were brought to Juarez from Torreon yesterday. They had been in prison in Torreon since the fall of Zacatecas, and all of them expected ultimately to be put to death.

All save two of them are Spaniards. They are accused of siding with the Federalists during the battle of Zacatecas, a charge which they emphatically deny. They will be cared for by American priests, and sent to Parishes in the southwest, where there is a large number of Spanish Americans.

Villa has let it be known that he will continue his war upon the clergy and the church in Mexico. He charges that the catholic church in Mexico persistently has been recalcitrant to the Federal cause and that the priests have been taking active part in securing recruits and funds for Huerta's army. In none of the cities taken by Villa are more than 2 or 3 priests permitted to remain. Formerly there were in some of them as many as thirty or forty. Those permitted to stay in all instances are Mexicans who have proved that they have been neutral.

# ORANGEMEN HOLD GREAT CELEBRATION IN THIS PROVINCE

Calgary, July 12.—Over two thousand of the members of the Orange Order in Alberta assembled and paraded in this city Saturday. It was the largest celebration of its kind ever held in this province, and the progress of the Orangemen through the principal streets was witnessed by the major portion of the city's population. Speeches were delivered by Acting Mayor Caweltz, J. Harvey Moore of Edmonton, Grand Organizer, Rev. Marchmont Ing, Springfield, deputy Grand Organizer, Wm. J. H. H. M. Calgary, the oldest Orangeman in Alberta, he having been connected with the order for 45 years, and Alderman Crandall, first Grand Master of the

provincial lodge. In the speech of reference was made to the prominent part played by the Orangemen of the city in the recent election. Roblin's policy of separate schools being strongly condemned. The whole tenor of the address was one flag, one language and one empire. A message of sympathy with the Ulster movement and urging that they stand by their guns and win the day, was forwarded to Sir Edward Carleton, Calgary lodge 2548 won the prize for making the best showing in the parade. In the afternoon a very successful program of sports was carried through at Victoria Park in the presence of a large attendance of spectators.

Komagata Maru, at the same time a half a dozen boats of which were were meant to put out of the adjacent wharves.

In a few moments the game was as clear as the coming day. Without further concealment the launches were headed straight for the Komagata, encouraged by the shouts from those on board the steamer. When within hailing distance the launches were ordered to stand off. Some of them did so, but others steered to the other side of the vessel in the hope that the attention of the officials would be distracted and that they would therefore be able to accomplish their design. The rifles that were pointed at the Komagata were given to understand in no mistakable terms that the slightest move on their part or on the part of the Komagata tourists would be drastically dealt with. In view of this, the Hindus returned to shore and the effect of this raid has been to double the government's watch. There are rumors that the Vancouver Hindus who have paid the charter money will throw the ship if some definite steps are not taken to hasten her departure.

# STEAMER WITH 1,200 ON BOARD GOES ON ROCKS; NONE LOST

Rimouski, Que., July 12.—The steamer Canada, of the Canadian Pacific, on her return trip from Montreal to Campbellton, N. B., struck two rocks off Cape Chateau Saturday night in a dense fog for a half mile east of Cape Chateau. The Canada carried about 1,200 passengers for Quebec and Montreal, and general cargo. The weather was calm and the grounding caused little excitement on board. All the passengers were placed in boats and landed on shore, 20 at half a mile from the stranded steamer.

The steamer Strathcona left Rimouski wharf late yesterday to try to free the Canada. As the Canada went on the rocks at high tide it is anticipated the work will be difficult.

# CAPTAIN KENDALL SATISFIED WITH EMPRESS FINDINGS

Not So Captain Anderson, of Storstad, Who Calls Lord Mersey Fool.

REPORT LAID BEFORE OTTAWA GOVERNMENT

No Intimation Given as to What Action is Likely to Follow the Report

Ottawa, July 12.—Lord Mersey, head of the commission which held the inquiry into the Empress disaster at Quebec, is in Ottawa. His report, in its entirety, will be presented to the government today and the government will now consider what action may be taken as a result of the findings. No opinion could be obtained in government circles as to what the impression of blame made by the commission will result in. It is pointed out, however, that the findings of the commission in which blame is placed upon Captain of the Storstad, for the disaster, is not operative in the sense that it recommends or imposes punishment. The commission was appointed simply to take evidence, to report and make recommendations as to provisions for further safety at sea. The evidence and the findings may be taken as guidance for further action in the civil or criminal courts.

It is in the power of the department of justice or of any individual to take action against the guilty parties for manslaughter or against the responsible company for damages, but in such cases evidence would still have to be taken over again and it is conceivable that the finding of the court would be in accordance with that of the commission which has just reported.

The government will consider the report of the commission before making a decision as to what action will be taken. Quebec, July 12.—A very indignant man was Captain Anderson, of the Storstad, when he left the court room on Saturday, after hearing his vessel so roundly blamed for sinking the Empress. He was so angry that he was anxious to borrow the tradition which permits counsel three days in which to express opinion about the latest disaster, before a case.

"I did not think Lord Mersey would be such a fool," he is said to have exclaimed to a reporter, "and you can say so in your paper if you like. He may be Lord Mersey, but he is not a fool. He has never had any reputation he is going to lose it over this case. It is my opinion that he was trying to find fault with the Canadian Pacific, and you can say that, too."

"But," declared Captain Anderson, "don't you imagine that this thing will stop here. We people in Norway are too much interested in seeing it through. There is a plenty of work in the courts, both in Canada and Britain. We shall start a suit for damages against the C.P.R. here at once. Then we shall take action in the admiralty court in Britain and that is where we shall get at every thing out in the open—there will be no Lord Mersey to run things there," and the angry Norwegian strode away to lunch.

London, July 12.—"The fluke of the blame on the Storstad was what I knew from the first must happen," said Captain Kendall when seen regarding the finding of the dominion commission about the Empress of Ireland disaster.

Asked as to the suggestion in the report that the Empress of Ireland should have given the Storstad a wider berth, Captain Kendall said that if the Storstad had not altered her course no accident would have happened. It was immaterial how close the vessels were if each had kept courses. In the upper reaches of the St. Lawrence ships have to pass quite close, and so long as they keep their proper course there is no danger.

"I am satisfied with the findings," said Captain Kendall, "I know the inquiry was conducted by brilliant and able men in the most impartial manner."

Drowned in Swimming Hole

Saskatoon, July 12.—Charles Millward and Frank Macquire were drowned at Arlath yesterday while bathing in a swimming hole seven miles from town. Two men who attempted to rescue had narrow escapes for their lives.

Lightning Destroys Crops

Saskatoon, July 12.—Fire caused the destruction of 200 acres of crop between Hartley and Togo yesterday. It is reported to have been caused by a flash of lightning. Over 100 men from the surrounding towns put up a heroic fight and finally got the flames under control at 9 p.m.

# CONSERVATIVES WILL HAVE VERY CIVIL MAJORITY

Roblinites Claim Four, But Liberals Say Only Two—St. George Doubtful

NORRIS IS COMPLETELY SATISFIED WITH RESULT

Vigorous Campaign to be Conducted in North Where Armstrong May Run.

Winnipeg, Man., July 12.—The organizer of B. L. Taylor, conservative candidate of the constituency of St. George has made certain private advice this morning that Mr. Taylor has carried St. George with a majority of 59 votes. This result would make certain the returns from some outlying polls, which go heavy for Mr. Taylor. The present standing of the parties is: Conservatives, 125; Liberals, 21; deferred, 3.

Winnipeg, July 12.—The standing of the parties in the next legislature of Manitoba still remains in doubt, three days after the election. Liberal and conservative claims still differ, the government forces still believing in a 25 to 21 standing, which include the two doubtful seats, St. George and St. Rose. Last night, however, the liberals, while conceding St. George, claimed St. George as a liberal victory, giving St. George, liberal, a lead over Hamilton, Conservative, by 41 majority, with three seats in accessible polls in the north, two, they declare, will go liberal and one conservative, leaving the final result a liberal victory.

Should the liberals really be successful in taking St. George, the standing would be 24 to 21, the conservatives having formerly claimed both seats in arriving at the 25 to 21 standing. The result cannot be taken as any degree of accuracy, however, until the returning officers' figures are turned in, and St. George, having a rounder margin in accessible polls in the north, will likely be somewhat delayed. There are 23 polls in this constituency and about nine are still out.

Another claim put forth by the liberals last night, was that the Conservatives had been reduced from 91 to 74, which may mean another recount. Mr. Steele had a majority of 126 in the 1910 election and has represented Cypress continuously since 1893.

Isolated Poll Coming in

Several changes in the returns from isolated polls, but which, however, do not change the successful candidate's position, have been secured, as well as missing polls. General interest continues keen as the public watches these struggles coming in the government with a smaller margin leading to speculation as to the standing in the fourteenth legislature. It is now estimated that the government's having a majority will be a small one—how small is the announcement, the public want to know.

T. C. Norris, liberal leader, issued a brief statement last night. He said he was "completely satisfied with the result."

Vigorous Campaign in North

The campaign in the north is being conducted immediately and today speakers for both parties left for La Paz, where the first of three deferred polls will be taken place. It does without saying that the fight will be waged with unusual keenness for such a sparsely populated district. Dr. Crok, who was elected to represent New Manitoba in the last house, when La Paz comprises practically the whole of the added territory, has been chosen to defend his seat, the liberal candidate being William Carriere.

Second By-Election, August 17

Winnipeg, July 12.—The Free Press says this morning: "Nominations for the deferred and first election in the new constituency of Grand Rapids will be made Monday, July 27, at the school house, Grand Rapids. The election takes place three weeks later, Monday, August 17, here at La Paz. Nominations for La Paz are, as before stated, July 16, election on July 30. William Carriere will likely be the liberal candidate. It is rumored that Hon. Hugh Armstrong, provincial treasurer, who was defeated in Portage, will be the Roblin candidate. Mr. Armstrong is a large property holder in the riding.

Grand Stand is Burned

Montreal, July 12.—Fire destroyed the grand stand of the stadium at A. A. at Mile End Saturday morning. The loss is estimated at about \$15,000. The origin of the fire is not known, but it is thought lightning struck the grand stand.

Mob Lynches a Negro

Orangeburg, S. C., July 12.—Ross Carson, a negro, was lynched from a tree at Lynchburg near here, Saturday and lynched by a mob. He is said to have confessed to beating to death the 12-year-old daughter of D. F. Bell yesterday.

# BULLS CARRY OFF THE HONORS, AND WOUND THE MEN

Madrid, July 12.—The bulls carried off the honors in the bull fighting here yesterday. In the event for the amateurs the sword of one of the toreros was caught by the bull and tossed into the stand. It struck a spectator in the neck, killing him.

Later a Mexican, wordsman, after killing the first bull, was mortally gored the second. The fighting then stopped for the day.

Marselles, July 12.—In a bull fight here today, a matador, Ochoito, was desperately wounded, the bull striking him in the abdomen with a side blow of the horn.

# THOUSANDS VISIT THE CADET'S CAMP SUNDAY AFTERNOON

Attracted by Band at East End Park, Boys are Centre of Attraction

EDMONTON'S TENT CITY IS MODEL OF ITS KIND

Will Break Camp Tuesday After Six Days' Successful Outdoor Training

Because it was Sunday and a lovely day, and the fact that there was music in the east end park, was cause for several thousand people to visit the Cadet camp in that end of the city, and the 250 or more boys who were in camp, appeared delighted at having a visit paid them by their parents, sisters and friends.

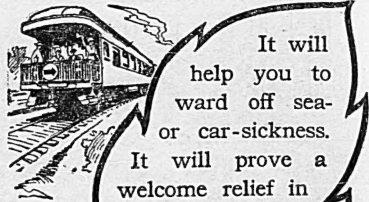

The camp has been a great success in every sense of the word. There are adepts here from Red Deer and Camrose, Fort Saskatchewan and Wainwright, and about 200 are residents of this city. The boys are expected to have been in camp, Col. Cruikshank states that owing to the rainy weather, but the government and the day following, was responsible for many staying away, which was just as well, owing to lack of suitable tent space in the park. The camp is indebted to the city for allowing them the use of the park for camp purposes and for the return of that on it did rain and the water in some cases did trickle under the canvas, the cadets were not allowed to run in very few cases, to dig the customary trench around each tent, as such a procedure would spoil the park's appearance.

The order of procedure at the Cadet camp is similar to that of any military camp. The boys arrive at 6:30 in the morning and answer roll call, and during the morning and afternoon are drilled and marched about the camp. On Saturday, some time was spent by several of the companies in target shooting. The battalion is divided into ten companies and there are some 25 boys as a signal corps and 25 others being instructed in first aid and hospital work and in scouting. There have been but two or three minor accidents in camp, one boy running a nail into his hand and another having his finger bitten by a horse. Several have been compelled to leave some time in the hospital, but for some minor ailment, usually headache or influenza, and one boy having a fever. There are two trained nurses in charge of the hospital tent as well as a doctor and assistant. These nurses will be permanently connected with the cadets' forces. None of the boys have had occasion to leave the hospital tent, and over night, which speaks well for the care attended them.

Yesterday morning church service was held under the leadership of Rev. Mr. Fisher, of Calgary, who is the regiment's chaplain. The staff of officers under Col. Cruikshank, the same as were in charge at the Calgary camp, which was double the size of the one here. The meals for the cadets are served in the big pavilion on the exhibition grounds, where there is every convenience for cooking, serving, etc. There are a number of women in charge of the kitchen end of the camp and everything has been satisfactory. In fact the Colonel states that the boys are particularly well fed, and that in many instances there is some food left over. Sunday's dinner consisted of soup, roast beef, potatoes, cabbage, and apples. The food is very good, and it can readily be seen that the boys are not on short rations. The allowance for each boy per meal is three ounces of meat and the same quantity of grown men in large military camps receive, and for the next two days, the boys will be allowed an extra portion of better with their meals.

Moving pictures of the church parade at the Albert Hotel, first street and photographer, who secured about 500 feet of the parade. A panoramic view of the parade was taken and the boys will be shown at the Empress theater on Friday and Saturday.

There is a group on the C. P. C. A. tent where the cadets receive and post their mail and are supplied with writing material, and many have taken advantage of the accommodation. There are more than 100 tents set up, the boys are taking care of themselves, and will also take them down. The tent lines are kept in best of order, blankets are straight, tents kept clean and the boys themselves taught every rule of order and discipline, and from reveille at 6:30 in the morning until 10:30 at night, the boys are kept in the best of order. The shanks says that the Edmonton cadet camp is one of which he is proud. The boys are breaking camp Tuesday morning and will have been under canvas and enjoying life out-of-doors, for six days.

# TORRENTIAL RAINS FALL IN WINNIPEG FLOODING STREETS

Beneficial Results From Week-  
end Downpour Almost Over  
Entire West

## MEDICINE HAT AREA STILL WITHOUT RAIN

Part of Southern Alberta Will  
Have Crop Failure From  
Dry Weather

Winnipeg, July 12.—Cyclonic rains from Manitoba and Saskatchewan, and a good average rainfall in northern Alberta, gave new life to the growing crop in the Canadian prairie west, and in some cases saved the crop from absolute failure. The only district of any size not visited was the Medicine Hat district, and as a result the grain there is suffering severely and in many cases is a complete loss. "There will hardly be an acre of grain out in this district," says the W. A. F. correspondent there.

Other correspondent report exceedingly beneficial results from the rainfall. The previous hot spell had left the land parched and cracked and the grain dying up for want of moisture. Though there had been slight falls at various times during the past few weeks these had barely settled the dust, and in Manitoba particularly there had been drought. It was Manitoba, however, which received the heaviest fall of this week-end, and in Winnipeg the rains were torrential. On Saturday night and Sunday morning, however, 4.50 inches of rain fell, between 7 p.m. Saturday to 10 o'clock Sunday noon.

A slightly less heavy rainfall was reported from Brandon, in central Manitoba. In the north, or northern part of the province, the rain was not so heavy. In the south, where the prairie and south Saskatchewan also reported generous falls.

Edmonton for northern Alberta, reported rain, as did Calgary for the central portion of the province. These predicted bumper crops, in contradiction to Medicine Hat's plant of a poor harvest in prospect.

The reports from these central points are supplemented by reports from small cities and towns as to their distribution and all except southern Alberta report more or less rain for the week-end.

## AUSTRIA WITHDRAWS SUSPENSION AGAINST C. P. R. AGENTS THERE

London, July 12.—The Austrian council for emigration to the Canadian Pacific railway, has been restored to its previous position. The suspension of the railway last year was in consequence of allegations that the company's agents were assisting Austro-Hungarian subjects to evade military service by enlisting. Samuel Altman, the principal agent of the company in Vienna, was arrested last October on the charge of assisting Austro-Hungarian emigrants to Canada, but was released after a parliamentary committee had begun its inquiry into the charges.

Vienna, July 12.—The Austrian government has withdrawn the prohibition imposed upon the Canadian Pacific railway with regard to carrying on commercial business and its agencies are now free to resume their work.

The resolution against the Canadian Pacific railway last year was in consequence of allegations that the company's agents were assisting Austro-Hungarian subjects to evade military service by enlisting. Samuel Altman, the principal agent of the company in Vienna, was arrested last October on the charge of assisting Austro-Hungarian emigrants to Canada, but was released after a parliamentary committee had begun its inquiry into the charges.

# REDMOND APPEALS FOR FUNDS TO ARM IRISH VOLUNTEERS

Says Enrolment Nationalist  
Force Has Now Become an  
Absolute Necessity

## IS NOT TO ATTACK, BUT PROTECT LIVES

Express Correspondent Reports  
Ulster Men Seized—  
Government Munitions

London, July 12.—John Redmond, the Irish Nationalist leader, has issued an appeal to sympathizers with home rule, in which he asks for contributions to the fund for the Irish Nationalist volunteers. He says among other things: "Recent events have made the enrollment of this force an absolute necessity in order to safeguard the hard won liberties of Irishmen and to protect their lives and property. The object of this force is not to attack, but to defend."

The London correspondent of the Daily Express contradicts the assertion of the authorities that they got the 200 Munster rifles and 30,000 rounds of ammunition which they seized on Wednesday night at Dublin. The correspondent says the Ulster volunteers armed with revolvers awaited the train carrying the munitions toward Dublin at Strabane, 15 miles from Londonderry.

The authorities, who suspected that something of this kind might be done, had sent the ammunition and rifles by an earlier train. When the Ulster volunteers found that they had been deceived, they sent on word to the British, where 100 volunteers were mobilized within half an hour. As the train had passed safely through Omagh, an Orange-hatched, the authorities thought it would be safe to reduce the armed guard to 25 men of the royal Irish constabulary, which accompanied the seized munitions. When the train arrived at Strabane, the volunteers found that the constabulary were not armed. These were immediately surrounded by the 100 volunteers. They found themselves helpless against the revolvers levelled at them. The volunteers then recovered their supplies of rifles and ammunition and carried them away in automobiles.

## SURPRISED TO DISCOVER OPIUM IN HIS POCKETS

Whether or not the opium habit is becoming a habit among some members of the law fraternity, is a much debated question among lawyers who were present at police court this morning, since one of their number, Gordon Winkler, one of the prominent defendants in police court cases, appeared in court this morning and produced a quantity of the drug from his pocket and presented it to the magistrate. His statement that he had been carrying it about with him, but luckily no one had "sneaked up" to the fact, and he might have been in his pocket, but he did have opium in his possession.

The facts of the case, however, were that Pong Yuen, Edmonton's wealthiest Chinaman, had been surprised yesterday to find that the drug had been slipped into his pocket by some unknown, and he not wanting it, had passed it on to Winkler, who in turn did not wish to have it found in his possession, and turned it into court. Nor did the magistrate or the clerk want it, and the little packages of the drug were sent to the police, until Clerk Sandles took charge and laid it on his desk. It will be destroyed in all paraphernalia connected with opium. How ever the packages of the drug came to be in Pong Yuen's pocket is a deep mystery, and all that is known is that each in his turn was glad to rid himself of its possession.

## TWO PORTLAND GIRLS WANT HOMESTEADERS AS THEIR HUSBANDS

F. T. Fisher, secretary of the Edmonton board of trade, has been communicated with by two girls who want to marry Alberta homesteaders. Their letter to Mr. Fisher reads in part as follows:

"Can you help us to win a home in Canada. We are two English working girls and we just think we want to have of our own instead of a city flat, and we want also the cows and chickens."

"We are not beauties, nor are we freaks, but ordinary girls who want a home and can keep one and appreciate our hope and ambition is to live on a homestead in the last west and work for and with the right man."

"We want a farmer, simple, of our own, and we are lovers of out-door life, and we want to enter into the work and feel that we are doing it."

The names of the two girls are Miss Hanna Stanley and Miss Virginia Weller, 24 and 25 years old respectively, and their address is 48-270 Lincoln street, Portland, Oregon.

Mr. Fisher asks that those interested write to the girls direct, and that none communicate with him, although he does not guarantee the genuineness of the letter he received.

**A Home Recipe for Wrinkled, Saggy Skin**

The famous skin lotion, prepared by a beauty specialist for removing wrinkles and for restoring the skin to its natural beauty, can be easily made at home. Ask your druggist for salicylic in powder form, 1 lb. and 2 oz. of water. Mix the powder in the water and add the face, neck and hands. The solution is ready to use. The skin becomes soft and supple. The wrinkles, as well as creases and folds about the neck, cheeks or hands. The tissue beneath the skin also becomes finer and more elastic.

One feels much refreshed and exhilarated after using this wonderful skin lotion. Its continued use once a day for only a few minutes makes the average person look ten or fifteen years younger.

**A TRIP TO COOKING LAKE**

Come with us to Cooking Lake. It is 22 miles by rail south of Edmonton. You leave the C.N.R. depot at six in the evening or eight-fifty in the morning, and in only an hour's run, through the very prettiest piece of country. You think you would not care to. Others have thought so and believed it, but let us start this evening and see what impressions we get. The train is well filled with work-end pleasure seekers, and everything is merry, the weather is ideal, none could but form the best opinion. The train has slowed up and there on the platform bronzed faces and burnt arms are in evidence, as campers crowd forward for the expected visitors. After hilarious greetings the different parties are disposed of in the many launches, little and big, which are waiting to take them to the respective parts of this pretty lake, which is almost twelve miles long. Irregular in shape, with three islands to enhance it. As we are going to the extreme farther end we have excellent opportunity to observe the many cottages and cluster of camps scattered along on either side of the lake. A flock of black ducks circle about, and a sail in the distance makes the pulse throb quicker with keen delight. Small boats and canoes are idly drifting up and down, lights are beginning to twinkle here and there and we are aroused from the reverie to find that we have arrived at our destination and are quite ready for a belated and generous meal, for this is the environment which makes for appetite. Some music and a little dance on the verandah brings the hour to midnight, some one suggests a dip and, nothing loth, as the night is balmy, we are soon in bathing costume. The water is entraining, and a storm many miles away to the northwest, with the lightning alive blushing in the sky, adds a delightful refreshing smell we are up early to catch all the glories of the morning. A dip and a swim about the most beautiful of the shore holds delights unknown, much fun and meriment proceed. The water is dark blue and in progress, motors from town crowd the road at the south end beach, and we realize that all too soon we must make preparation to return to the city. You had a good time! Surpassed every expectation! I was sure of it.

**DO YOU KNOW**

That mesaline waists are in high favor on account of the vogue for satin surfaced cloth and the newwaists show less blouse than the case recently.

That there are women who make home by their very presence because they have found the beginning of home within themselves.

That it is a great idea to save a growing girl from the bride's bouquet; plant it in front of the new home, and the bride can gather roses from the bush each day.

That every one in Paris is wearing a patch, the newest ones being in velvet and dark blue and dark purple and with all black being seen.

That Charles E. Murray and Tommy Hall will be fighting for world's suffrage shortly, according to the prediction of Mrs. Harriet Stanton Blatch, head of the Women's Political Union in New York.

That at a sacrifice of butter for a week and a half, 2000 Baptist girl students in Philadelphia gathered a sum needed to win out in their campaign to raise \$10,000 to pay off a mortgage on the building by commencement time.

That many houses will be worn outside the skirts this year owing to the bague designs in dresses, as women who wear the separate skirt and waist desire to have their skirts show.

That if you tan after a few weeks in the burning summer sun, it is the sign of health, but if you remain pale and unaffected by the season's rays, you must, perhaps, look to your health.

That the vogue for sleeves that differ from the frock in material is established beyond dispute.

That there are boys who nearly die of thirst during the summer, just because their mothers forget to give them water.

That women "cope" in bathing suits have been stationed at the bathing beaches in Chicago to discourage "masers."

That since the Providence, R. I. city council have refused to purchase a market site, a local market partnership association has voted to erect a building for themselves.

That pleasant net is wired at the edge and standing four inches upward from the oblong, rounded-out neck of the dress, is a fashion among New York debutantes just now.

That six well-known Cleveland women have been appointed as an advisory board for that city's new farm for dependent girls and delinquents from the juvenile court.

That stone grey, the exact shade of powdered pumice, is the latest modish tint in Paris for silk finished green, gabbardine and thin whipsort, and is particularly effective with touches of Japanese pink or asphodel blue.

## WOMEN'S ILLMENTS CAUSED BY NEGLIGENCE

Proper Treatment Will Quickly Bring Back Robust Health and Good Spirits

Women are on the whole more sickly than men. One reason is that their system is more complicated; another and more important reason is they put off measures of relief too long. At the beginning, constipation is the cause of nine-tenths of women's ailments. The blood becomes weakened and polluted—the nerves suffer and a run-down condition takes root.

Because of their mildness of action as a system regulator, no medicine for women can compare with Dr. Hamilton's Pills. The kidneys quickly respond to the remedial action of Dr. Hamilton's Pills. The result is that you would expect—in the back and side, shortness of breath, and bad color disappear. The function of the body then operates naturally, congestion and pain are prevented and perfect health returns.

Thousands of happy women say Dr. Hamilton's Pills are the greatest and best blood-purifier. The finest completion renewer, the most certain regulating medicine known. Sold by all druggists and storekeepers. Six boxes, five for \$1.00 postpaid. The Catarrhose Co., Buffalo, N.Y., and Kingston, Canada.

**THE "LOST SERMON"**

STELLAR ATTRACTION AT BIJOU THEATER

Holding the artistic position on the Bijou theater bill for the first two days of the week, a new and sensational production, "The Lost Sermon," a photo-play dealing with social misfortunes, and dealing with happily to happiness. It is in two reels.

On a vacation from preaching, John Brown, a minister, is called to a town where he falls in love with one of his pupils, Rosemary Day. She lives with her grandmother, and he is asked to marry her. He is too sensitive to ask her to marry him, a penniless parson.

After a long and arduous journey, the city without learning that the Day property is heavily mortgaged. He is hardly out of the paper house before the foreclose unless Rosemary will agree to marry him. There is a party which rebuffed his attentions, but for her grandmother's sake, she is on the point of consenting to her. Day's sudden death saves her from this sacrifice. Phillips seizes the property, and Rosemary goes to the city alone, to make her own way.

Eventually the girl finds a good position, but she loses her money. Her employer is a friend of Phillips, and fearing to meet her persecutor, she comes up the place, and spends several weeks hunting for him. She is finally rebuffed his attentions, but for her grandmother's sake, she is on the point of consenting to her. Day's sudden death saves her from this sacrifice. Phillips seizes the property, and Rosemary goes to the city alone, to make her own way.

## Theatres and Picture Shows

**"FAIR CO-EDS"**  
PLEASING SHOW AT PANTAGES THEATER

It is a pleasing show which opens at Pantages theater this afternoon, and it has been some time since the management has offered a combination of variety and quality of such a high order.

The headliner is another of Menlo Moore's production and this time he calls it the "Fair Co-Eds." Those who saw his Summer Girls at Pantages last year remember that the musical sketch was above the ordinary and from all reports the Fair Co-Eds bid fair to surpass it in all respects. The story is woven round some beautiful music and, as usual, there will be some pretty girls who can both sing and dance, to take care of it. This music will probably be the most beautiful which have been shown in any local house for some time.

The two most serious of the Schiller String Quartette will satisfy them to the fullest extent. The quartette is composed entirely of women, and they and their female accompanists from the manner in which they dress on the stage. Miss Helen Schiller, who is the violinist of note, will be featured and beside demonstrating to the audience her wonderful skill will render a solo.

The fun on the bill will be partially taken care of by Hiras and Preston, the fast and funny comedians. There has been some time since such a palatable tumbling act has come to Pantages. The two comedians mix enough comedy with their act to make it very enjoyable. The singing and dancing features will be the result of the Chase and La Tour. They have a reputation as tip top song birds and they are not likely to disappoint Edmontonians.

The added attractions for the week are three masters of mirth who have toured the world, and who have been in the eastern states. Kitter, Haynes and Montgomery are the persons in question, and they will be seen in a highly amusing comedy sketch, entitled "Swells at Sea."

Other films on the bill include a series of news views of world current events, and a rattling good patter. Pipe organ selections by Mr. Paul will also be a feature.

**MRS. PANKHURST TO BE SEEN ON SCREEN AT PANTAGES THEATER**

One of the treats which Mr. Pantages has been saving for his Edmonton patrons is to be in his appearance here within a few weeks. The treat will be the appearance of Mrs. Emmeline Pankhurst, the noted suffragette, upon the screen stage of Pantages theater.

Hardly a day passes that one does not read in the papers how George Thelwell, who holds the debt, threatens to foreclose unless Rosemary will agree to marry him. There is a party which rebuffed his attentions, but for her grandmother's sake, she is on the point of consenting to her. Day's sudden death saves her from this sacrifice. Phillips seizes the property, and Rosemary goes to the city alone, to make her own way.

remembers that he has lost the sermon on which he spent so many days. He is assisted by several children. Strong finds the sermon case in the possession of the woman whom he loves and who needs him so badly.

Besides this two-reel feature there is a good comedy reel and several news views to round out an excellent program for Monday and Tuesday. There are none of the blood-curdling scenes that might be inferred from the title, but a sane, wholly plausible story has been devised for dramatization.

Julius Adler, a poor East Side Jew, is robbed by a gang of toughs, who at the appearance of Officer Maloney, made a quick getaway. Maloney takes the case to the chief, who orders the case arrested. They get Dan Kelly, a well known leader among the toughs, and he is sentenced to five years up the river. He swears vengeance on Maloney. The Jew is released with the protection given him by Maloney that he gives Maloney's daughter, Mary, a bracelet with the word "Maloney" engraved on it. It has years passed and Dan Kelly, now a leader of police, frames a job on Sergeant Maloney. The two are tangled in the case, then Dave Monty, a confederate of Kelly's reports a gambling house which is a tabernacle of vice. The proprietor who is Kelly is arrested, he claims
